you entry?

Dear Pete, Got your call this morning. Dead lines are still in tact. I have a session with Jim & El to do end of half life on Thurs 11th 6 pm. for 4 hrs. It maybe nice to have your version of the ending there at the session. I have done the line as above (it is the harmony part) and my normal top line which may or may not be as good as your version. I doubt it. However you have done it to a reasonable standard. Please note the accenting; its the way I have phrased it. Also please could you look at putting in some chords on last 5 bars as well as the line. I think your entry could ^{for class} be as marked above.

All best Phil.
